

## Webinar #1 - How energy efficiency policy evaluation can produce benefits and add value to policy makers

### Objective:

According to numerous experiences and evidences, evaluation of energy efficiency policy can produce many benefits for policy makers and contribute to improve existing policies and design new ones that are more effective. The EPATEE project will contribute to this topic by sharing some interesting experiences on how evaluation has been used and has produced an added value for policy makers, besides giving some suggestions on the way to make a better use of it and to overcome possible barriers. This is the objective of this first webinar, aimed at policy makers and officers, and the other stakeholders involved or interested in evaluation activities.

### Part A - March 13, 2018

#### Agenda:

10.30	Introduction	Dario Di Santo, EPATEE project
10.40	The EPATEE project	Gregor Thenius, EPATEE project
10.50	Experience feedback from Ireland	Jim Sheer, SEAI
11.05	Experience feedback from Sweden	Rurik Holmberg, Swedish Energy Agency
11.20	Debate	
11.45	End of webinar	

### How to register:

### Part B - March 20, 2018

#### Agenda:

11.30	Introduction	Dario Di Santo, EPATEE project
11.40	The EPATEE project	Gregor Thenius, EPATEE project
11.50	Experience feedback from Denmark	Peter Bach, Danish Energy Agency
12.05	Experience feedback from Finland	Heikki Väisänen, Finnish Energy Authority
12.20	Additional debate	
12.45	End of webinar	

### How to register:

To register please use this link: <https://attendee.gotowebinar.com/register/2172390174005228034>

### What EPATEE is about

Several barriers limit energy efficiency policy evaluation. This results in a lack of quantitative data, and impedes evidence-based analysis required to distinguish effective from ineffective energy efficiency policies. EPATEE aims at tackling this problem by raising the capacity of policymakers and implementers. The project will provide them both with tools and with practical knowledge to make effective impact evaluation an integral part of the policy cycle. EPATEE makes use of existing evaluation experiences in a range of instruments, such as energy efficiency obligation schemes, regulations, financial incentives and voluntary agreements. Experience sharing is the core of the project. Lessons learnt from other EU initiatives and good practices in how to successfully evaluate the impact and cost-effectiveness of such energy efficiency policies will provide the basis for the development of guidelines and good practice evaluation tools. For further information please visit our website: [www.epatee.eu](http://www.epatee.eu).
