

This project has received funding from the European Union's Horizon 2020 Research and innovation programme under grant agreement No 746265.

Invitation to the

Final Conference of EPATEE

“What can we learn from existing evaluation practices?”

19th September 2019, 09:30-14:00 | Paris

Espace Cédias, 5 rue Las Cases, 75 007 Paris

What EPATEE is about?

EPATEE aims at **raising the capacity of policymakers and implementers**. The project provides them both with tools and practical knowledge to make effective impact evaluation an integral part of the policy cycle, thereby improving the effectiveness of energy efficiency policies. EPATEE makes use of existing evaluation experiences in a range of different policy instruments. **Experience sharing** is the core of the project. Lessons learnt from other EU initiatives and good practices in how to successfully evaluate the impact and cost-effectiveness of **energy efficiency policies** provide the basis for the **development of tools to enhance evaluation practices**. For further information please visit our website: www.epatee.eu

What is the aim of the Conference?

The aim of EPATEE's final conference is **to present the conclusion of the project** as well as to provide a platform for stakeholders to exchange knowledge and discuss existing practices of the **evaluation of energy efficiency policies** in order to establish an energy efficiency evaluation community. The conference serves at achieving one of EPATEE's main targets: **to enable user-oriented experience sharing and capacity building**. The agenda of the conference will focus on

- ▶ The main conclusions of EPATEE
 - ▶ Why evaluation matters
 - ▶ Key lessons learnt to improve evaluations and policies
- ▶ Presentations of hands-on experiences by evaluation experts
- ▶ A panel discussion with different stakeholders and evaluation experts
- ▶ A poster session showcasing the main tools and outputs of EPATEE

Please click [HERE](#) to register to the conference.

All registered participants will receive the final agenda as well as any other preparatory material well in advance of the conference.

We are looking forward to meeting you at the final EPATEE conference on Evaluation into Practice to Achieve Targets for Energy Efficiency.

Best regards,

Gregor Thenius on behalf of the EPATEE consortium
